6. "Setting" – Higher Quality (192 kbps)
7. "OK"
8. "OK"

### How Do I Export My Music From Dance Designer?

#### In Dance Designer – Music Tab

1. Click "Export Music"
2. The "My Music" folder opens
3. Name the new file
4. Click "OK"

### How Do I Import My Dance Designer Music into iTunes?

#### In iTunes

1. Click "File"
2. Click "Add File to Library"
3. Select the file that was exported from Dance Designer
4. Click "Open"

### How Do I Burn Music to a CD from iTunes?

You will need a blank CD and a CD burner on your computer. The following are instructions to assist you with this process in iTunes.

1. Select - "File"
2. "New Playlist"----- it will ask you to name this new playlist  
Add as many songs that will be used in your dance to your playlist
3. Go back to Music in your Main Library
4. Drag and Drop the protected song into your newly created playlist
5. Click "Burn Disc" in the lower right hand corner
6. Dialog Box will appear –
  - a. Preferred Speed – "Maximum Possible"
  - b. Disc Format – "Audio CD"
  - c. Gap Between Songs – "2 seconds"
  - d. Select "Burn"
7. Let the process complete
